20 November 1963

Colonel White:

25X1A9a [redacted] called to extend to you an invitation to visit the computer area on Friday, 22 November. He

25X1A9a thought that you might like to bring Mr. [redacted] with you; whomever you would like to take with you would be fine. He would give you a tour of the area and a demonstration by running a commo job--this should take about twenty minutes.

We thought that 11:30 would be a good time. Is this acceptable to you; if so, who would you like to accompany you?

[redacted]
